

Eating Fractions

I made a jelly sandwich,

$$\frac{1}{2}$$

Just for me to eat.

Along came a hungry giraffe

So I cut my sandwich in half.

$$\frac{1}{3}$$

I had a juicy orange,

A large one with no seeds.

Along came two tweeting birds

So I cut my orange in thirds.

$$\frac{1}{4}$$

I had a chocolate bar,
Thick with nuts galore.

Along came three reporters

So I cut my chocolate in quarters.

I learned a good lesson
About fractions that day.
But I decided for my next snack,
I'll just sneak away!
