

Train Your Brain Rap

Train your brain! Train your brain!

If you want to be smart,

You better make a start.

Train your brain! Train your brain!

If you're not that great at something YET,

Spend the time –work– it's a sure bet

Train your brain! Train your brain!

Challenges and things to make you strive,

That's how to switch your brain to overdrive.

Train your brain! Train your brain!

Mistakes are not something to make us worry.

If you notice what's wrong you can fix it in a hurry.

Train your brain! Train your brain!

If something's hard and you feel you're in the pit,

Be brave - attack it – don't just quit.

Train your brain! Train your brain!

Brains get smarter the more practice you do,

So practice hard til it sticks like glue.

Train your brain! Train your brain!

Don't start looking at how the others do.

The only way to think is - You vs You.

Train your brain! Train your brain!

Watch your progress and see how far you go.

It feels great to make your brain power grow.

Train your brain! Train your brain!
